

Brand: Ranger
Description: Light & Medium Truck Adapter Set
Fits Brake Lathe Models: RL4500 / RL8500

These precision hardened steel adapters increase lathe performance and brake component mounting capacity. Fits most 1" arbor lathes and helps deliver a superior micro-finish on drums and rotors, composite and standard cast applications and most flywheels. Features single setup, self-centering, and extra mass for maximum vibration damping providing better results with less chatter.

Light & Medium Truck Adapter Set
