

Brand: Ranger

Model: RD-15

Description: 15-Gallon Portable Oil Drain

Wide-Body Portable Oil Drain

Remember your old red Radio Flyer? Meet the grown-up version. This heavy-duty, low-profile oil wagon gives you 15 gallons in the tub, so it's perfect for truck and RV service. Removable steel mesh keeps foreign debris out, while baffles and splash guards prevents spillage. You'll be pulling as much as 110 lbs. of oil in this drain, so you'll be glad to have the swivel casters and T-handle for easy mobility. Use it with an evacuation pump or good old gravity; it's completely up to you.

Features

- Wide-body design eliminates tipping and assures proper balance
- Removable steel mesh cover keeps out debris
- Built in baffles and splash guards prevents spillage
- Heavy-duty steel construction with a low-profile design
- Ideal for truck and RV service
- Swivel casters for superior mobility
- T-shaped handle for easy positioning
- Built-in drain nozzle
